

BULK = SUSTAINABILITY

WHY?

LOWER WASTE

Less packaging

Waste reduction

Lower carbon footprint

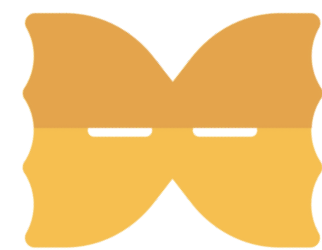

ECO-CONSCIOUS PACKAGING

Since we switched to compostable bags for pre-packed bulk items in 2018, **over 40,000 single-use plastic bags have been diverted from landfills every year**

KEEP YOUR DOLLARS IN THE LOCAL ECONOMY

For every \$1.00 spent on a locally produced product, **~ \$.70 stays in the local economy** vs. **~ \$.40** when buying from a national brand

We proudly work with dozens of local producers & distributors to bring you nuts & dried fruits, flours & grains, coffee & tea, honey & maple syrup, and so much more!

BULK COFFEES

Support living wages for farmers in Central & South America. All of our bulk coffee partners **pay farmers at or above Fair Trade standards.**

DRIED MANGO

Rich in calcium, Vitamin A & antioxidants, no sugar added, shelf stable, delicious = perfect portable snack!
